THE

ELECTRICAL WORLD

126464

AND

ENGINEER.

A WEEKLY REVIEW OF CURRENT PROGRESS IN ELECTRICITY AND ITS PRACTICAL APPLICATIONS

VOLUME XLI.

FROM JANUARY 3 TO JUNE 27, 1903.

NEW YORK.
ELECTRICAL WORLD AND ENGINEER.

INDEX TO VOLUME XLI.

GENERAL ALPHABETICAL INDEX.

NOTE.—*Entries from the Digest of Current Electrical Literature are indicated by D. (Digest) and D. R. (Digest Reference). Illustrated articles are indicated by**

A

ABNER, DOBLE CO. Tests of tangential water-wheels under 1912 ft. effective head..1071
Acetone: Acetylene dissolved in. By Hutton (D.) 703
——Electrolytic preparation of iodoform from. By Abbott (D.)..... 571
Acetylene and calcium carbide (D. R.)..... 249
——dissolved in acetone. By Hutton (D.).. 703
——Impurities in. By Keppeler (D.)..... 981
——Purification of technical. By Keppeler (D. R.)..... 841
Aeronaut monument in Paris..... 890
Aeronautics, Aerial torpedo 36
Aerial navigation, Electricity as motive power in. By Dr. T. Byard Collins.....*440
Aerial telegraphy, Branley-Popp system of. By Henry Hale.....*823
Agriculture, Electricity in, 547. By Emile Guarini *554
Air in caves, Ionization of. By Ebert and Ewers (D. R.)..... 86
——Current from..... 36
——Electric conductivity of atmospheric. By McLennan and Burton (D.)..... 937
——Electric discharges in. By Alfred G. Dell 15
——Electric dissipation in fog. By Gockel (D.) 452
——Spontaneous ionization in. By Patterson (D.)..... 369
Airship, Wheel to run. By F. A. Shepard.. 561
Alcohol, Cheap chemical..... 607
Alkalies: Action of iodine on. By Foerster and Gyr (D. R.)..... 530
——earth metals, Production of permanganate of. Hickmann patent. By C. P. Townsend 886
——Electrolytic, industry. By J. B. C. Kershaw (D.)..... 86
——Sodium chloride in electrolytic caustic. By Townsend (D.)..... 40
Alloys: Copper-cadmium. By Denso (D.).. 667
——of lead, tin and bismuth. By Shepherd. (D.) 166
Alphaduct Mfg. Co. Fire-proof fibre conduit. *46
ALTERNATING CURRENTS:
Alternating Currents: Changing, into two undirectional currents. By Benischke (D. R.)..... 979
——circuit, Power factor regulator. Johnston patent 976
——in coal mining..... 397
——vs. direct, applied to iron and steel industry. By C. H. Hines.....*315
——Electrolytic dissolution of platinum by means of. By Ruer (D.).....841
——Five-phase system. By Ehnert (D.)..... 451
——lines, Compensation for induction drop on long. Kelley patent..... 37
——model. By White (D. R.)..... 205
——phenomena, Graphical methods for. By Orlich (D.)..... 285
——Physiological effects of. By Andriessen (D. R.)..... 842
——railway return circuit. Mordey patent... 244
——Rectification of, by means of the electric arc 883
——Rectified constant current from constant-potential. Rice patent.....1018
——Rectifying. Thomson patents..... 526
——switches and fuses, Testing of. By Howe (D.) 1020
Alternators: (See also Dynamos, Generators.)
Alternators: By Loppe (D. R.)..... 487
——Armature reaction of. By C. F. Guilbert 32, *116
——Commutation of. By M. Latour.....*977
——Compensated. By Bragsted (D. R.).... 977
——Compounding. By Boy de la Tour (D. R.) 663
——Compounding. Rice method..... 84
——frames, Stresses in. By A. Hansson.... 282
——Governing. By De Marchena (D.) 129, (D. R.)..... 163
——Governors for engine-driving. By Parkinson (D.)..... 39
——Large three-phase (D.)..... 804
——in parallel. By Cramer (D. R.) 39. Benischke, Rosenberg, Georges (D. R.) 85. (D.) 164. Fernandez (D. R.) 487. Benischke (D.) 568. Manduit (D. R.) 568. Oscanyan 652. K. G. Dunn 836. Georges (D. R.)..... 977
——Predetermination of characteristics..... 318
——Synchronizing. By Callis (D.)..... 623
——Synchronizing apparatus for. Dow patent. 976
——Synchronous impedance and standstill impedance, 2. By F. Townsend, H. P. Freund, W. I. Reich..... *13
——Three-phase. By Doane (D. R.)..... 892
Alumina and carborundum. Weber patent. By C. P. Townsend..... 928
Aluminum. By Burgess and Hambuechen (D.) 286. Pitival, Sperry (D. R.) 624. By J. B. C. Kershaw (D.) 704, (D.)..... 760
——anode. By Taylor and Inglis (D.)..... 87
——as reducing agent in metallurgy. By Scholl (D. R.)..... 286
——bronze. By Sperry (D. R.)..... 704
——litigation 644
——Present metallurgy of. By J. W. Richards (D.)..... 248
——valves. By Nodon (D.)..... 624
Amalgums, Potassium, as cathodes. By Lyman (D. R.)..... 369
American Association for the Advancement of Science, volume of proceedings of Pittsburg 1902 meeting..... 434
——Washington convention, 62. By N. Monroe Hopkins *73
American Conduit Co. Bituminized fibre conduit 166
American District Steam Co. Central station steam distributing system..... 581
American Electric Improvement Co. Clark electric process for water purification *670
American Electrochemical Society, new membership 325, 485
——New York meeting.....600, 643, 681, 694
American Institute of Electrical Engineers, annual dinner.....190, 265, 268
——Annual meeting.....858, 963
——April meeting..... 750
——Board of Directors' report..... 916
——Boston meeting.....310, 312
——Boston branch officers..... 565
——Chicago meeting.....64, 472, 832
——Chicago meeting on high tension lines... 644
——Chicago meeting on telephones..... 925
——Chicago, season's programme..... 436
——Discussion of central station papers..... 793
——March meeting.....*557
——Membership 862
——National Electric Code Committee meeting 245
——Niagara meeting programme 889, 926, 1040, 1042, 1085, 1088
——Philadelphia meeting ..392, 472, 684, 918, 1059
——Pittsburg meeting.....*312
——St. Louis Chapter..... 244
——Student members..... 548
——Students theses..... 802
——Telephone meeting..... 189
——Wisconsin branch..... 527
American Street Railway Association, Mechanical and Electrical branch..... 392
American Thermo-Call Co. Push button....*898
Ammeters and voltmeters: Jewell circuit breaking *579
——Nalder & Thompson recording..... *50
——Westinghouse alternating current long scale *708
Ampere, Portrait of..... 84
Annunciator drop litigation, Warner..... 927
Anode: Aluminum. By Taylor and Inglis (D.) 87
——connector. Moore patent. By C. P. Townsend *928
——Disintegration of. By Wohlwill (D.).... 938
——for electrolytic work. Dow method. By C. P. Townsend..... 159
——for electroplating. By Burgess and Hambuechen (D.) 1109
Antimony: Electrolytic preparation of. By Izart (D. R.)..... 490
——Izart and Thomas process (D. R.)..... 704
Arc: Alternating current. By Guye and Monasch (D. R.) 488, (D.)..... 805
——Electric (D. R.)..... 283
——electric, Rectification of the alternating current by means of..... 883
——mercury, Pressure in. By Stark and Reich (D.)..... 621
——mercury, Pulsating direct currents in the alternating current. By Monasch (D.) 894
——mercury vapor, Experiments with. By Goetze (D. R.)..... 978
——Speaking *319
ARC LAMPS:
Arc lamp, Columbia.....*133
——Connection of. By Kaufmann (D. R.).1107
——Division of labor in Mexico..... 746
——Electrolytic. Dean patent..... 976
——Enclosed 1004
——Enclosed, statistics. By L. B. Marks... 881
——fittings. Central Electric.....*170
——General incandescent enclosed.....*1027
——guard, Hamblin & Russell "Never Break" *49
——Hornsey installation (D.)..... 757
——for interior car lighting (D. R.).....1107
——Low amperage..... 954
——Multiphase. Fleming patent *1102
——Osborn-Morgan interchangeable.....*459
——photometry 700
——regulating mechanisms (D. R.)..... 488
——regulation. Davis patent.....1017
——Small economical (D.)..... 568
——Special connections of. By Boje (D.)...1019
——Stanley "Sterling"..... *44
ARC LAMPS. (Continued.)
——suspension, Stirrup for. White Star Appliance Co.....*986
——with impregnated carbons. By Ziedler (D.) *487
Armatures, Improvements in construction, for induction motors. Thomson patent, 1017. Steinmetz patent.....1063
——sheets, Slotted. By Hundhausen (D. R.) 128
——Ventilating dynamo.....1062
Army: Electrical instruction for officers at Sandy Hook..... 565
——Electricians for..... 836
——Electricity in. By Chas. G. Chase...127, 835
——Wireless telegraphy in. By Prasch (D. R.) 939
Association of Railway Telegraph Superintendents, annual convention of..... 886
——Convention exhibits..... 897
Atmosphere. What cold does 1103
Atmospheric electricity and terrestrial magnetism (D. R.) 1108
——ionization. By Rutherford and Allen (D.) 130
Atomic fog, Sir Wm. Crookes on 1006
Atwater-Kent Mfg. Works. Desk telephone set*768
——Monoplex intercommunicating telephones.*210
Autocar, Electric, in Belgium..... 891
Auto-Igniter Company. Ignition dynamo....*899
Automatic Electric Pump Co. Pumps.....*585
Automatic Switch Co. Automatic motor starter *710
Automatic Time Stamp Co. Time stamp for telephone switchboards.....*583
Automobile Manufacturers' Association, annual dinner..... 200
AUTOMOBILES:
Automobile batteries, American (D. R.)..... 704
——chairs at St. Louis Exposition. Electric Chair Co. 1111
——charging in Boston district..... 992
——bus, London..... 828
——business 242
——charging outfits, Westinghouse.....*764
——Electric 363
——and horseless carriage patents, Digest of. 282
——Kammann electric.....*497
——manufacturers' combination..... 588
——omnibus, Petrol-electric (D.).....1020
——show, Brussels..... 523
——show, England 245, (D. R.) 368, (D. R.) 839
——show, New York.....143, *167, 202
——Small generators for (D. R.)..... 757
——speedway, Berlin, Germany..... 161
——in St. Louis.....1017
——Street sprinkler in Paris..... 802
——telephone truck. Rainier.....*532
——Trial of commercial, in New York City. 523, 890
Automobilism, Present status of electric. By Hayden Eames..... *68

B

BALL ENGINE CO. Engine governor..... *51
Barlow's wheel for lecture purposes. By Carvallo (D. R.)..... 624
Barron, Jas. S. & Co. Cable clip.....*631
Batteries. (See Primary, Storage.)
Battleships, New..... 510
Bay State Stamping Co. Oil cups and oil hole covers.....*631
Bearings, Electrical resistance of. By A. E. Kennelly and C. A. Adams..... 231
Bell, Alexander Graham. Biography (D. R.) 939. By Benjamin (D.)..... 981
Biology, Dissociation theory in. By Bancroft (D.) 1067
Bismuth, lead and tin, Alloys of. By Shepherd (D.)..... 166
——Thermomagnetic properties of. By Lowndes (D. R.)..... 285
Bleach and chlorine, Apparatus for electrolytic production of. By Ulke (D. R.) ..1109
——liquors, Production of. Haas Method. By C. P. Townsend.....*159, 198
Boats, Submarine, French..... 202
——in navy..... 36
——Trial of Porpoise..... 890
Bogue, Chas. J. Electrolytic generator.....*256
Boilers: Oil and compound feeders for. By Hobart (D. R.)..... 328
——plant for St. Louis Exposition. Williams and Wollender..... 375
——Robb-Mumford *767
BOOK REVIEWS:
—Alternating Current Calculating Device. By F. G. Baum..... 842
—Alternating Current Machines. By Samuel Sheldon 453
—American Municipal Progress. By Prof. Charles Zueblin..... 206
—Anlasser und Regler fur Elektrische Motoren und Generatoren. By Rudolf Krause 41
—Annual Report of the Board of Regents of the Smithsonian Institute, 1901..... 939
—Art of Illumination. By Louis Bell..... 370

BOOK REVIEWS. (Continued.)
—Asynchrone Generatoren. By Clarence Feldmann 491
—Conductors for Electrical Distribution. By F. A. C. Perrine..... 807
—Design of Dynamos. By Silvanus P. Thompson 531
—Die Bahnmotoren für Gleichstrom. By M. Muller and W. Mattersdorf..... 981
—Die Funkentelegraphie. By C. Arldt..... 981
—Die Gewinnungdes Aluminums. By Adolphe Minet..... 207
—Die Grundgesetze der Wechselstromtechnik. By Dr. Gustav Benischke..... 981
—Die Kunstlichen Kohlen. By Dr. Julius Zellner 625
—Die Wechselstromtechnik. Edited by E. Arnold 573
—Einfuhrung in die Elektrochemie. By F. Gertes 762
—Electrical Dictionary: English, German, French. By Paul Blaschke..... 414
—Electrical Engineers Pocket Book. By Horatio A. Foster..... 331
—Electricity as Applied to Mining. By A. Lupton, G. D. Aspinall Parr and H. Perkins 625
—Electricity and Its Similitudes. By Chas. H. Tyndall..... 371
—Der Elektrische Betrieb von Fernschnellbahnen. By Gustav W. Meyer..... 330
—Elektrische Strassenbahnen. By Johannas Zacharias 981
—Elektro-Ingenieur Kalender, 1903. By Arthur H. Hirsch..... 531
—Elektromagnetische Aufbereitung. By F. Langguth 667
—Elektromechanische Konstruktionen. By Gisbert Kapp..... 762
—Elektromotoren fur Gleichstrom. By Von G. Roessler..... 249
—Elektrotechnik in Einzel-Darstellungen. By Dr. G. Benischke..... 572
—Elementare Vorlesungen uber Telegraphie und Telephonie. By Richard Heilbrun 414, 895
—Elements of Electrical Engineering. By Thomas Sewell..... 491
—Finances of Gas and Electricity Manufacturing Enterprises. By W. D. Marks 939
—Galvanic Batteries. Their Theory, Construction and Use. By S. R. Bottone 413
—How to Become a Competent Motorman. By Virgil B. Livermore and James Williams 940
—How and Why of Electricity. By Chas. Tripler Child..... 371
—Improvements in the Hungarian Telegraph and Telephone Installations..... 207
—Introduction Motor. By Henri Boy de la Tour 981
—Isoliermaterialien und Warme (Kalte) Schutzmassen. By Eduard Feltone.. 414
—Jahrbuch der Elektrochemie. By Dr. W. Nernst and Dr. W. Borchers..... 207
—La Traction Electrique par Contracts Superficiels du Systeme Diatto. By Dr. Julius 41
—Leitfaden zur Konstruktion von Dynamomaschinen. Und zur Berechung von Elektrischen Leitungen. Von Dr. Max Corsepius..... 330
—Les Theories Electriques de J. Clerk Maxwell. By M. P. Duhem..... 454
—The Locomotive: Simple, Compound and Electric. By H. C. Reagan..... 208
—Manual of Rural Telephony. By J. A. Williams 207
—Motor Cars. By Rhys Jenkins..... 88
—Notes on Laying, Repairing, Operating and Testing Submarine Cables. By Captain Edgar Russell..... 454
—Physico-Chemical Tables. By John Castel Evans 667
—Reference Library of Modern Engineering Practice: Steam, Electricity, Mechanics. By Frank W. Gunsaulus... 761
—Secondary Batteries: Their Theory, Construction and Use. By E. J. Wade.. 573
—Specielle Elektrochemie. By Dr. H. Dannell 842
—Successful Advertising. By J. Angus McDonald 207
—Technologia del Calore. By Rignaldo Ferrini 491
—Telephone lines. By Walter C. Owens....1022
—Telephone Green Book, The, for 1902. By H. H. Robinson..... 207
—Telephony. By A. V. Abbott.....1068
—Theoretical Elements of Electrical Engineering. By Chas. Proteus Steinmetz 131
—The Town Trouble. By Adolph F. Hamacek 166
—Transactions of American Electrochemical Society 88
—United States Automobile Patents. Compiled by Jas. T. Allen..... 454
Brake air compressor. General Electric.....*629
Brake, Electromagnet (D. R.)..... 88
Bridge, Mersey River (D. R.)..... 368
Bridges and canal lifts, Electric operation of (D.) 283, (D.)..... 893
British Columbia, Power development of..... 25
British Thomson-Houston Co. Direct current motors.....*576
——New shops.....*42
Brush Electrical Engineering Co. English turbo-generators *982
Buffalo Forge Co. Steam engine tests *897
Bullock Electric Mfg. Co. Motor-generators. *289, *533, *941

C

CABLES, Capacity of. By Andriessen (D. R.) 894
——clip. Barron "H-P".....*631
——ships (D. R.)..... 572
——Standardization of conductors and (D.).. 979
Cables, Submarine: Black Sea concessions.. 409
——British Pacific.....661, 802
——Commercial Pacific, Laying..*4, 64, 245, 975, 1103
——Commercial Pacific speed (D.)..... 41
——Core ratio of. By Young (D.) 530, (D.) 624
——Dutch, at Guam.....483, 689
——Effect of Marconi's work on quotations.. 199
——Fanning Island station..... 36
——Farallon Islands, severed..... 754
——German steamship "Stephan"..... 318
——Laying 363
——New German.....408, 1105
——Proposed vocabulary..... 808
——South Sea..... 61
——Testing. By Dalton (D. R.)..... 841
——Trans-Pacific, 126. By McAdie (D. R.).. 572
——Wireless telegraphy and..... 956
Cables, Underground: Charging high-tension. By Garrard (D.) 489. Woodhouse (D.) 570. Partridge, Orton, Northcote, Garrard (D.).....*622
——Conduits for. By Schmidt (D. R.)..... 285
——Disturbances on. By Schoenan (D.).... *88
——Earthed metallic sheathing for. By Mavor (D.)..... 623
——in England..... 548
——Localizing faults in three-phase. By Janet (D. R.)..... 166
——System of Chicago Edison and Commonwealth Electric Companies..... 152
Calcium carbide and acetylene (D. R.)..... 249
——Diester process. By Caro (D. R.)..... 704
——industry in France (D.)..... 530
——Method of converting waste material. Cox patent. By C. P. Townsend... 835
Calculagraph in factories. Calculagraph Co.. 421
Calculagraph Co. Calculagraph..... 421
Canadian Electrical Association, convention..1056
Canals: Electric haulage on. By Marchant (D.) 130; (D. R.) 204; (D. R.) 702. Szasz (D.) 1020. Perkins (D. R.)..1108
——Electric power on Erie..... 36, 148, 1074
——Electric towage in Germany..... 745
——Installations on Belgian and French. By Gerard (D.)..... 130
——lifts and bridges, Electric operation of (D.) 283
——power, Chicago drainage.....152, 161
Capstan, Electric (D. R.)..... 758
Carbide, Subdividing blocks of. Scales method. By C. P. Townsend..... 525
Carbon: Direct combination of chlorine with. By Bolton (D. R.)..... 704
——Conversion of amorphous to graphite. By Fitzgerald (D.)..... 165
——Electrical discharge from hot. By Child (D.) 86
——electrodes (D.)..... 841
——resistances, High. By Longden (D.)..... 87
Carborundum and alumina. Weber patent. By C. P. Townsend..... 928
Carnegie Institution grants..... 366
——Work of..... 237
Carpenter, J. M., Tap & Die Co. Tap and reamer wrench.....*710
Carter, Edward Tremlett. Obituary..... 879
Cathode fall, Abnormal, in vacuum tubes. By Stark (D.)..... 412
——plate. Henry patent. By C. P. Townsend *656
Cathode rays: Braun tube. By Wehnelt (D.) 370
——Light and. By Zehnder (D.)..... 369
——Magnetic and electric deflection of. Starke (D.) 369
Cathodes: Potassium amalgam. By Lyman (D. R.)..... 369
Cathodic depolarization, Diminution of, by potassium chromate. By Mueller (D.) 205
Caustic, Production of electrolytic. Le Sueur patent. By C. P. Townsend..... 562
——soda cell. Johanns patent. By C. P. Townsend *656
Cement works, Explosion at Edison..... 409
Central Electric Co. Incandescent arc lamp fittings *170
Central Missouri Telephone Association, meeting 447
CENTRAL STATION:
Central Stations (D. R.)..... 163
——Acetylene, in Austria (D. R.), 571. By Vogel (D.)..... 981
——Alternating and direct-current systems. By C. F. Scott (D.)..... 759
——Annual reports of Chicago Edison and Commonwealth companies..... 882
——Arrangements for operating steam railways electrically. By C. J. Spencer.. 272
——Bill to discipline dishonest companies.. 517
——Calculating net works. By Wilberforce (D.), 411 (D. R.)..... 840
——Centralized management of electrical properties, 856. By H. S. Knowlton.... 880
——Combined alternating and direct-current system. By Eleazer Darrow.....*200
——Combined water power and gas engine plant (D.)..... 488
——Design of..... 739
——Design of records and returns. By Davies (D.) 1108
——Discussion of A. I. E. E. papers..... 793
——Distribution of current in network of wires. By Feussner (D.), 285. Herzog and Feldman (D. R.) 529. Teichmueller (D. R.) 894
——Distribution of losses in supply systems. By Constable and Fawcett (D.), 623; (D. R.), 894; (D.)..... 936
——Economical and safe limits in size of.... 747
——Edison apparatus..... 51

CENTRAL STATION. (Continued.)
——Effect of grounding the neutral on an alternating-current system..... 606
——efficiency. 266
——Enclosed arc lamp statistics of thirty stations. By L. B. Marks..... 881
——Fuel consumption in. By Jos. E. Lockwood, 486. H. LeH. Smith, 661. Lockwood 837
——Gas engine, Franklin, Pa.....1030
——Hot water plant, Thermopolis, Wyo. By L. B. Cherry.....*361
——Hydraulic developments and electric installations. Jackson paper..... 436
——Hydro-electric plant in Newfoundland. By Earl E. Boardway.....*391
——Independent crane conveyor for. By E. K. Scott (D.)..... 838
——Insulation tests of networks and earthing of middle wire. Taylor method (D.) 623
——Kolben, 3,000-kw. generating units. London Metropolitan system.....*984
——Line protection devices (D.).....*164
——Lost current..... 954
——Low rates and water power plants..... 598
——Multiple versus independent operation of 702, *788
——Municipal lighting. (See Municipal lighting.)
——Oiling system for. By Moock (D.)....1065
——Parallel operation of steam and water power plants. By Chas. Brandeis.... 318
——Polyphase work in 1903. By Eborall (D.) 411
——Progress in 1902. By W. S. Barstow.... 21
——Property rights in streets..... 182
——Protection against atmospheric discharges (D.) 978
——rates. By Lauriol (D. R.), 39. Bastian (D.) 368
——rates, Cleveland individual plan, 447. By Samuel Scovil.....*658
——rates in New York State..... 510
——rules and regulations (D.)..... 570
——Safety devices in, 738. Philip Forchio paper on..... 828
——Statistics of hydraulic stations in France. By Coignet (D.)..... 758
——Statistics of Massachusetts electrical supply systems in 1902. By Alton D. Adams 877
——Stealing current from.....1004
——Stealing current in Mexico City..... 801
——Steam distribution from. American District Steam Co. system..... 581
——Steam plants..... 738
——Steam turbine plant of Manchester Corporation, England. Parsons & Co..*983
——Steam turbines in Rockland, N. Y..... 211
——Steam versus hydraulic power. By Hecker (D.) 568
——Storage battery plant at Milwaukee (D. R.) 1108
——syndicate movement..... 470
——telephone system, Manchester, N. H....*962
——Tendencies of modern development..... 832
——testing, Economical value of, 221. By Prof. Geo. D. Shepardson..... 232
——Use of exhaust steam in working salt evaporators 1004
——Use of meters (D.) 939, (D.)..... 978
——26,000-Volt installation at Grenoble, France. By C. L. de Muralt.....*182
——Voltage regulation in networks. By Hiecke (D. R.)..... 894
——Water power plants. By Adams (D.).. 893
——Water power versus steam plants. By Jas. L. Thorne..... 245
——Wright system of charging for energy (D.) 204
CENTRAL STATIONS:
——Acatlan, State of Vera Cruz, Mexico..... 812
——Badorf, Germany (D.)..... 203
——Ballarat, Aus..... 378
——Barnstable, England (D. R.)..... 570
——Bezman, Switz. By Rung (D. R.)..... 838
——British statistics (D.) 164, (D.)..... 204
——Cascade Water, Power & Light Co., Canada. By W. G. McConnon *705, (D. R.) .4.....1107
——Cauvery Falls, India (D. R.)..... 85
——Charlottenburg, Germany (D.).....1066
——Chattanooga, new..... 461
——Chicago overhead distribution. Chicago Electrical Association meeting on... 691
——Chicago. Recent development of Edison and Commonwealth systems.....*863
——Colima, Mexico..... 55
——Cordoba, Argentine Republic..... 337
——Cordoba, Mexico..... 945
——Delhi Durbar, India temporary plant....*512
——Dominion Iron & Steel Co., Sydney, N. S. (D. R.) 1107
——Duluth, General Electric Company's plant, Rebuilding. By Clifford L. Higgins..*1007
——Duluth water power plant..... 291
——Erith, Great Britain, three-phase plant (D.) 247
——on farm near Leipzig, Germany. By Grundmann (D. R.).....1020
——Gaffney, S. C..... 870
——German statistics (D.)..... 85
——Grenoble, France. By C. L. de Muralt.*183
——Norway water power plant, Halfslund. By Franz Koster.....*552
——Helena, Mont., rebuilt.....*615
——Iquitos, Peru..... 425
——Kansas City, Central avenue station (D. R.) 894
——Kansas City consclidation..... 943
——Lawrenceville, Va..... 378
——London, Central Electric Supply Co. (D.) 247
——Los Angeles, Cal. By Low (D. R.)..569, 586
——Mount Ranier, Washington. By Mayo (D. R.) 1107
——Neversink Light & Power Company (D. R.) 1107
